PROSTAGLANDINS LEUKOTRIENES AND ESSENTIAL FATTY ACIDS

Prostaglandins Leukotrienes and Essential Fatty Acids (1995) 53, 450–457
© Pearson Professional Ltd 1995

Subject Index to Volume 53

A

Adult respiratory distress syndrome: beneficial effects of a leukotriene receptor antagonist on thrombin-induced pulmonary oedema in the rat, 433
Age-related depletion of linoleic acid desaturation in liver microsomes from young spontaneously hypertensive rats, 59
Airway
  effect of thromboxane A_2 receptor antagonist BAY u3405 on neuroeffector transmission in canine tracheal tissue, 213
  effect of thromboxane A_2 receptor antagonist ON-579 on experimental allergic reactions, 123
  epidermal growth factor (EGF) and TPA stimulate de novo synthesis of PGHS-1 and PGHS-2 through different signal transduction pathways, 225
Allergic reactions
  effect of thromboxane A_2 receptor antagonist ON-579 on experimental allergic reactions, 123
  inhibitory effects of azelastine and tranilast on leukotriene B_4 and leukotriene C_4 generation by rat colonic mucosa, 355
  relevance of mediators to cardiac parameters of isolated anaphylatic guinea-pig heart, 21
Alpha-linolenic acid (ALA)
  effect of different n-6/n-3 essential fatty acid ratios on calcium balance and bone in rats, 13
  protective capability of dietary *Zizyphus mistol* seed oil on the development of murine mammary gland adenocarcinomas, 135
Aluminium oxide ceramics, prostaglandin release from rat femurs after implantation of, 413
Anandamide
  an endogenous cannabinomimetic eicosanoid, 1
  analysis of anandamide and other natural *N*-acylethanolamines, 301
Angiotensin-converting enzyme inhibitors
  effects of long-term treatment with ACE inhibitor on angiotensin II and prostacyclin release from mesenteric arteries in spontaneously hypertensive rats, 359
  effects of a single dose and short-term captopril treatment on some pressor and depressor humoral factors in healthy subjects, 377
Arachidonic acid A
  AA and eicosanoids as targets and effectors in second messenger interactions, 239
  age-related depletion of linoleic acid desaturation in liver microsomes from young spontaneously hypertensive rats, 59
  diets rich in eicosapentaenoic acid and gammalinolenic acid affect phospholipid fatty acid composition and production of prostaglandins E_1 E_2 and E_3 in turbot (*Scophthalmus maximus*), 279
  eicosanoids fatty acids and neutrophils: their relevance to the pathophysiology of disease, 75
  evidence of a temperature-sensitive step in the release of prostaglandin E_2 in calcium ionophore-stimulated rat muscle, 117
  fatty acids in ovine endometrial phospholipids in late gestation and labour, 201
  influx of extracellular calcium and agonist-coupling appear essential for the activation of thromboxane A_2-dependent phospholipase A_2 in human platelets, 31
  mouse spermatozoa can synthesize prostaglandin E_2 and 5-hydroxyeicosatetraenoic acid in vitro: stimulatory action of nitric oxide, 347
  noradrenaline and dopamine infusions modulate AA metabolism ex vivo in man, 47
  role of interferon-alpha in AA metabolism by the rat uteri from spayed animals: effect of 17beta-oestradiol, 267
Aspirin: low-dose administration does not attenuate platelet aggregation or atherosclerosis in miniature swine but decreases production of aortic wall prostacyclin, 331
Asthma: effect of thromboxane A_2 receptor antagonist BAY u3405 on neuroeffector transmission in canine tracheal tissue, 213
Astroglia, ovine, role of protein synthesis in interleukin 1 alpha-induced prostaglandin production in, 69
Atherosclerosis
  low-dose aspirin does not attenuate platelet aggregation or atherosclerosis in miniature swine but decreases production of aortic wall prostacyclin, 331
  role of fatty acids and eicosanoids in modulating proteoglycan metabolism in endothelial cells, 315
Atrial natriuretic peptide: effects of a single dose and short-term captopril treatment on some pressor and depressor humoral factors in healthy subjects, 377
Azelastine, inhibitory effects on leukotriene B_4 and leukotriene C_4 generation by rat colonic mucosa of, 355

B

BAY u3405 (thromboxane A_2 receptor antagonist), effect on neuroeffector transmission in canine tracheal tissue of, 213
Beraprost sodium inhibition of thrombin-induced increase in endothelial macromolecular permeability, 103
Beta-thromboglobulin: platelet activation and platelet lipid composition in pulmonary cancer, 65
Blood
  differential effects of acute thermal injury on rat splanchic and renal blood flow and prostanoid release, 439
  improvement of blood flow and diabetic neuropathy by thromboxane A_2 dual blocker KDI-792, 139
  noradrenaline and dopamine infusions modulate arachidonic acid metabolism ex vivo in man, 47
Blood pressure
  age-related depletion of linoleic acid desaturation in liver microsomes from young spontaneously hypertensive rats, 59
  effect of high potassium diets on the vascular and renal prostaglandin system in stroke-prone spontaneously hypertensive rats, 255

Azelastine, inhibitory effects on leukotriene B_4 and leukotriene C_4 generation by rat colonic mucosa of, 355

B

BAY u3405 (thromboxane A_2 receptor antagonist), effect on neuroeffector transmission in canine tracheal tissue of, 213
Beraprost sodium inhibition of thrombin-induced increase in endothelial macromolecular permeability, 103
Beta-thromboglobulin: platelet activation and platelet lipid composition in pulmonary cancer, 65
Blood
  differential effects of acute thermal injury on rat splanchic and renal blood flow and prostanoid release, 439
  improvement of blood flow and diabetic neuropathy by thromboxane A_2 dual blocker KDI-792, 139
  noradrenaline and dopamine infusions modulate arachidonic acid metabolism ex vivo in man, 47
Blood pressure
  age-related depletion of linoleic acid desaturation in liver microsomes from young spontaneously hypertensive rats, 59
  effect of high potassium diets on the vascular and renal prostaglandin system in stroke-prone spontaneously hypertensive rats, 255

effects of long-term treatment with angiotensin-converting enzyme inhibitor on angiotensin II and prostacyclin release from mesenteric arteries in spontaneously hypertensive rats, 359
effects of a single dose and short-term captopril treatment on some pressor and depressor humoral factors in healthy subjects, 377
Bone
effect of different n-6/n-3 essential fatty acid ratios on calcium balance and bone in rats, 13
prostaglandin release from rat femurs after implantation of hydroxylapatite and aluminium oxide ceramics, 413
Brain: diets rich in eicosapentaenoic acid and gammalinolenic acid affect phospholipid fatty acid composition and production of prostaglandins E_1 E_2 and E_3 in turbot (*Scophthalmus maximus*), 279
Breast cancer
effects of gamma-linolenic and dihomo-gamma-linolenic acids on 7, 12-dimethylbenz(alpha)anthracene-induced mammary tumours in rats, 95
effects of piroxicam and esculetin on the MDA-MB-231 human breast cancer cell line, 325
protective capability of dietary *Zizyphus mistol* seed oil on the development of murine mammary gland adenocarcinomas, 135
Bronchoconstriction *see* Airway
Burn(s)
acute burn injury down-regulates rabbit splanchic and renal prostanoid release, 219
differential effects of acute thermal injury on rat splanchic and renal blood flow and prostanoid release, 439
Butyrate, influence on prostaglandin synthesis in human cancer cells of, 87

C

Calcium
arachidonic acid and eicosanoids as targets and effectors in second messenger interactions, 239
effect of different n-6/n-3 essential fatty acid ratios on calcium balance and bone in rats, 13
evidence of a temperature-sensitive step in the release of prostaglandin E_2 in calcium ionophore-stimulated rat muscle, 117
influx of extracellular calcium and agonist-coupling appear essential for the activation of thromboxane A_2-dependent phospholipase A_2 in human platelets, 31
Cannabinoid receptors
analysis of anandamide and other natural *N*-acylethanolamines, 301
anandamide: an endogenous cannabinomimetic eicosanoid, 1
Captopril, effects on pressor and depressor humoral factors in healthy subjects of single dose and short-term treatment with, 377
Cardiomyocytes, neonatal rat, platelet-activating factor effects on eicosanoid release in, 197
Cardiovascular disease *see* Heart; Vascular system
Catecholamines
effects of long-term treatment with angiotensin-converting enzyme inhibitor on angiotensin II and prostacyclin release from mesenteric arteries in spontaneously hypertensive rats, 359
noradrenaline and dopamine infusions modulate arachidonic acid metabolism ex vivo in man, 47
relevance of mediators to cardiac parameters of isolated anaphylatic guinea-pig heart, 21
Cell growth *see* Growth
Ceramic materials, prostaglandin release from rat femurs after implantation of, 413
Cervical carcinoma cells in vitro, human, cytotoxic action of *cis*-unsaturated fatty acids on, 287
Cholesterol
abnormal membrane concentrations of 20- and 22-carbon essential fatty acids: a common link between risk factors and coronary and peripheral vascular disease, 385
consumption of a garlic clove a day could be beneficial in prevention of thrombosis, 211
Cirrhosis
increased prostacyclin content in gastric mucosa of cirrhotic patients with portal hypertensive gastropathy, 41
leukotriene metabolism is impaired in hepatocytes from rats with thioacetamide-induced liver cirrhosis, 309
Collagen: influx of extracellular calcium and agonist-coupling appear essential for the activation of thromboxane A_2-dependent phospholipase A_2 in human platelets, 31
Colon
inhibitory effects of azelastine and tranilast on leukotriene B_4 and leukotriene C_4 generation by rat colonic mucosa, 355
prostaglandin synthesis in human cancer cells: influence of fatty acids and butyrate, 87
Coronary heart disease, abnormal membrane concentrations of 20- and 22-carbon essential fatty acids and, 385
Cortisol, prostaglandin H synthase in the sheep placenta during labour induced by, 53
Cumulus-oocyte complexes, effects on in vitro fertilization in mice by prostaglandin synthesis in, 261
Cyclic AMP
arachidonic acid and eicosanoids as targets and effectors in second messenger interactions, 239
beraprost sodium inhibition of thrombin-induced increase in endothelial macromolecular permeability and, 103
Cyclooxygenase (CO; prostaglandin endoperoxide H synthase)
contribution of hepatocytes to prostaglandin synthesis in rat liver, 109
effects of piroxicam and esculetin on the MDA-MB-231 human breast cancer cell line, 325
garlic inhibition of cyclooxygenase activity: effect of raw versus boiled garlic extract on the synthesis of prostanoids, 397
mouse spermatozoa can synthesize prostaglandin E_2 and 5-hydroxyeicosatetraenoic acid in vitro: stimulatory action of nitric oxide, 347
oxygenation reactions of prostaglandins endoperoxide synthase and soybean lipoxygenase: surprising stoichiometry in the formation of hydroperoxy and hydroxy derivatives of cis,cis-eicosa-11,14-dienoic acid, 423
role of protein synthesis in interleukin 1 alpha-induced prostaglandin production in ovine astroglia, 69
Cytokines
control of prostaglandin production by the endometrium in relation to luteolysis and menstruation, 147
role of interferon-alpha in arachidonic acid metabolism by the rat uteri from spayed animals: effect of 17beta-oestradiol, 267
role of protein synthesis in interleukin 1 alpha-induced prostaglandin production in ovine astroglia, 69

D

Desaturase
age-related depletion of linoleic acid desaturation in liver microsomes from young spontaneously hypertensive rats, 59
diets rich in eicosapentaenoic acid and gammalinolenic acid affect phospholipid fatty acid composition and production of prostaglandins E_1 E_2 and E_3 in turbot (*Scophthalmus maximus*), 279
Diabetes mellitus
eicosanoid production and phospholipase A_2 activity in uterine tissue from castrated rats with non-insulin dependent diabetes mellitus, 341
improvement of blood flow and diabetic neuropathy by thromboxane A_2 dual blocker KDI-792, 139
Diet
diets rich in eicosapentaenoic acid and gammalinolenic acid affect phospholipid fatty acid composition and production of prostaglandins E_1 E_2 and E_3 in turbot (*Scophthalmus maximus*), 279
distribution of plasma phosphatidylcholine molecular species in rabbits fed fish oil is modulated by dietary n-6 fatty acids, 445
effect of different n-6/n-3 essential fatty acid ratios on calcium balance and bone in rats, 13
effect of high potassium diets on the vascular and renal prostaglandin system in stroke-prone spontaneously hypertensive rats, 255
effects of dietary n-3 n-6 and n-9 polyunsaturated fatty acids on benzo(alpha)pyrene-induced forestomach tumorigenesis in C57BL6J mice, 273
effects of gamma-linolenic and dihomo-gamma-linolenic acids on 7, 12-dimethylbenz (alpha) anthracene-induced mammary tumours in rats, 95

effects of n-3 and n-6 polyunsaturated fatty acids on plasma lipids and fatty acids of treated phenylketonuric children, 401
effects of piroxicam and esculetin on the MDA-MB-231 human breast cancer cell line, 325
effects of vitamin E deficiency and dietary lineolate on serum thromboxane synthesis in male Sprague-Dawley rats, 405
eicosanoids fatty acids and neutrophils: their relevance to the pathophysiology of disease, 75
protective capability of dietary *Zizyphus mistol* seed oil on the development of murine mammary gland adenocarcinomas, 135
Dihomogammalinolenic acid (DGLA)
diets rich in eicosapentaenoic acid and gammalinolenic acid affect phospholipid fatty acid composition and production of prostaglandins E_1 E_2 and E_3 in turbot (*Scophthalmus maximus*), 279
effects of gamma-linolenic acid and DGLA on 7, 12-dimethylbenz(alpha)anthracene-induced mammary tumours in rats, 95
Disease
eicosanoids fatty acids and neutrophils: their relevance to the pathophysiology of disease, 75
see also individual disorders
Docosahexaenoic acid (DHA)
cytotoxic action of *cis*-unsaturated fatty acids on human cervical carcinoma cells in vitro, 287
fatty acids in ovine endometrial phospholipids in late gestation and labour, 201
Dopamine and noradrenaline infusions modulate arachidonic acid metabolism ex vivo in man, 47

E

cis,cis-Eicosa-11,14-dienoic acid, oxygenation reactions of prostaglandins endoperoxide synthase and soybean lipoxygenase and, 423
Eicosapentaenoic acid (EPA)
cytotoxic action of *cis*-unsaturated fatty acids on human cervical carcinoma cells in vitro, 287
diets rich in EPA and gammalinolenic acid affect phospholipid fatty acid composition and production of prostaglandins E_1 E_2 and E_3 in turbot (*Scophthalmus maximus*), 279
effect of different n-6/n-3 essential fatty acid ratios on calcium balance and bone in rats, 13
fatty acids in ovine endometrial phospholipids in late gestation and labour, 201
Endometrium
control of prostaglandin production by the endometrium in relation to luteolysis and menstruation, 147
fatty acids in ovine endometrial phospholipids in late gestation and labour, 201
Endothelium
beraprost sodium inhibition of thrombin-induced increase in endothelial macromolecular permeability, 103
role of fatty acids and eicosanoids in modulating proteoglycan metabolism in endothelial cells, 315
Epidermal growth factor (EGF) and TPA stimulate de novo synthesis of PGHS-1 and PGHS-2 through different signal transduction pathways, 225
Esculetin, effects on the MDA-MB-231 human breast cancer cell line of, 325
Eugenol: an inhibitor of lipoxygenase-dependent lipid peroxidation, 381

F

Fatty acids (FAs)
abnormal membrane concentrations of 20- and 22-carbon essential FAs: a common link between risk factors and coronary and peripheral vascular disease, 385
cytotoxic action of *cis*-unsaturated FAs on human cervical carcinoma cells in vitro, 287
development of an in vitro model of essential FA deficiency in fish cells, 365
diets rich in eicosapentaenoic acid and gammalinolenic acid affect phospholipid FA composition and production of prostaglandins E_1 E_2 and E_3 in turbot (*Scophthalmus maximus*), 279
distribution of plasma phosphatidylcholine molecular species in rabbits fed fish oil is modulated by dietary n-6 FAs, 445
effect of different n-6/n-3 essential FA ratios on calcium balance and bone in rats, 13
effects of dietary n-3 n-6 and n-9 polyunsaturated FAs on benzo (alpha) pyrene-induced forestomach tumorigenesis in C57BL6J mice, 273
effects of n-3 and n-6 polyunsaturated FAs on plasma lipids and FAs of treated phenylketonuric children, 401
effects of piroxicam and esculetin on the MDA-MB-231 human breast cancer cell line, 325
eicosanoids FAs and neutrophils: their relevance to the pathophysiology of disease, 75
FAs in ovine endometrial phospholipids in late gestation and labour, 201
prostaglandin synthesis in human cancer cells: influence of FAs and butyrate, 87
role of FAs and eicosanoids in modulating proteoglycan metabolism in endothelial cells, 315
see also individual fatty acids
Fertilization
prostaglandin synthesis by cumulus-oocyte complexes: effects on in vitro fertilization in mice, 261
prostanoid excretion before in vitro fertilization relates to the likelihood of pregnancy, 419
Fish
development of an in vitro model of essential fatty acid deficiency in fish cells, 365
diets rich in eicosapentaenoic acid and gammalinolenic acid affect phospholipid fatty acid composition and production of prostaglandins E_1 E_2 and E_3 in turbot (*Scophthalmus maximus*), 279
Free radicals
cytotoxic action of *cis*-unsaturated fatty acids on human cervical carcinoma cells in vitro, 287
eugenol: an inhibitor of lipoxygenase-dependent lipid peroxidation, 381
mouse spermatozoa can synthesize prostaglandin E_2 and 5-hydroxyeicosatetraenoic acid in vitro: stimulatory action of nitric oxide, 347

G

Gammalinolenic acid (GLA)
cytotoxic action of *cis*-unsaturated fatty acids on human cervical carcinoma cells in vitro, 287
diets rich in eicosapentaenoic acid and GLA affect phospholipid fatty acid composition and production of prostaglandins E_1 E_2 and E_3 in turbot (*Scophthalmus maximus*), 279
effect of different n-6/n-3 essential fatty acid ratios on calcium balance and bone in rats, 13
effects of GLA and dihomo-gamma-linolenic acid on 7,12-dimethylbenz (alpha) anthracene-induced mammary tumours in rats, 95
Garlic
consumption of a garlic clove a day could be beneficial in prevention of thrombosis, 211
garlic inhibition of cyclooxygenase activity: effect of raw versus boiled garlic extract on the synthesis of prostanoids, 397
Gastrointestinal tract
effects of dietary n-3 n-6 and n-9 polyunsaturated fatty acids on benzo(alpha)pyrene-induced forestomach tumorigenesis in C57BL6J mice, 273
effects of different n-6/n-3 essential fatty acid ratios on calcium balance and bone in rats, 13
increased prostacyclin content in gastric mucosa of cirrhotic patients with portal hypertensive gastropathy, 41
inhibitory effects of azelastine and tranilast on leukotriene B_4 and leukotriene C_4 generation by rat colonic mucosa, 355
prostaglandin synthesis in human cancer cells: influence of fatty acids and butyrate, 87
Glucose: eicosanoid production and phospholipase A_2 activity in uterine tissue from castrated rats with non-insulin dependent diabetes mellitus, 341
Growth: effects of piroxicam and esculetin on the MDA-MB-231 human breast cancer cell line, 325

GTP-binding (G) proteins: arachidonic acid and eicosanoids as targets and effectors in second messenger interactions, 239

H

Heart
abnormal membrane concentrations of 20- and 22-carbon essential fatty acids: a common link between risk factors and coronary and peripheral vascular disease, 385
diets rich in eicosapentaenoic acid and gammalinolenic acid affect phospholipid fatty acid composition and production of prostaglandins E_1 E_2 and E_3 in turbot (*Scophthalmus maximus*), 279
platelet-activating factor effects on eicosanoid release in neonatal rat cardiomyocytes, 197
relevance of mediators to cardiac parameters of isolated anaphylatic guinea-pig heart, 21
Hepatocytes
contribution to prostaglandin synthesis in rat liver of, 109
leukotriene metabolism is impaired in hepatocytes from rats with thioacetamide-induced liver cirrhosis, 309
Histamine: relevance of mediators to cardiac parameters of isolated anaphylatic guinea-pig heart, 21
Hydroxyeicosatetraenoic acid (HETE): mouse spermatozoa synthesis of prostaglandin E_2 and 5-HETE in vitro and stimulatory action of nitric oxide, 347
Hydroxylapatite ceramics, prostaglandin release from rat femurs after implantation of, 413
Hypertension
age-related depletion of linoleic acid desaturation in liver microsomes from young spontaneously hypertensive rats, 59
effect of high potassium diets on the vascular and renal prostaglandin system in stroke-prone spontaneously hypertensive rats, 255
effects of long-term treatment with angiotensin-converting enzyme inhibitor on angiotensin II and prostacyclin release from mesenteric arteries in spontaneously hypertensive rats, 359
portal, increased prostacyclin content in gastric mucosa of cirrhotic patients with, 41
Hypothermia: evidence of a temperature-sensitive step in the release of prostaglandin E_2 in calcium ionophore-stimulated rat muscle, 117

I

ICI 198,615: beneficial effects of a leukotriene receptor antagonist on thrombin-induced pulmonary oedema in the rat, 433
Immune system
effect of thromboxane A_2 receptor antagonist ON-579 on experimental allergic reactions, 123
inhibitory effects of azelastine and tranilast on leukotriene B_4 and leukotriene C_4 generation by rat colonic mucosa, 355
relevance of mediators to cardiac parameters of isolated anaphylatic guinea-pig heart, 21
Implants: prostaglandin release from rat femurs after implantation of hydroxylapatite and aluminium oxide ceramics, 413
In vitro fertilization
prostaglandin synthesis by cumulus-oocyte complexes: effects on in vitro fertilization in mice, 261
prostanoid excretion before in vitro fertilization relates to the likelihood of pregnancy, 419
Inflammation
beraprost sodium inhibition of thrombin-induced increase in endothelial macromolecular permeability, 103
eicosanoids fatty acids and neutrophils: their relevance to the pathophysiology of disease, 75
inhibitory effects of azelastine and tranilast on leukotriene B_4 and leukotriene C_4 generation by rat colonic mucosa, 355
leukotriene metabolism is impaired in hepatocytes from rats with thioacetamide-induced liver cirrhosis, 309
prostaglandin release from rat femurs after implantation of hydroxylapatite and aluminium oxide ceramics, 413
Interferon(s)
control of prostaglandin production by the endometrium in relation to luteolysis and menstruation, 147
role of interferon-alpha in arachidonic acid metabolism by the rat uteri from spayed animals: effect of 17beta-oestradiol, 267
Interleukin 1-alpha-induced prostaglandin production in ovine astroglia, role of protein synthesis in, 69
Ion channels
arachidonic acid and eicosanoids as targets and effectors in second messenger interactions, 239
see also Calcium
Ischaemia
acute burn injury down-regulates rabbit splanchic and renal prostanoid release, 219
differential effects of acute thermal injury on rat splanchic and renal blood flow and prostanoid release, 439

K

Kallikrein-kinin system: effects of a single dose and short-term captopril treatment on some pressor and depressor humoral factors in healthy subjects, 377
KDI-792 (thromboxane A_2 dual blocker), improvement of blood flow and diabetic neuropathy by, 139
Kidney
acute burn injury down-regulates rabbit splanchic and renal prostanoid release, 219
diets rich in eicosapentaenoic acid and gammalinolenic acid affect phospholipid fatty acid composition and production of prostaglandins E_1 E_2 and E_3 in turbot (*Scophthalmus maximus*), 279
differential effects of acute thermal injury on rat splanchic and renal blood flow and prostanoid release, 439
effect of high potassium diets on the vascular and renal prostaglandin system in stroke-prone spontaneously hypertensive rats, 255

L

Leukotrienes (LTs)
beneficial effects of a LT receptor antagonist on thrombin-induced pulmonary oedema in the rat, 433
effects of piroxicam and esculetin on the MDA-MB-231 human breast cancer cell line, 325
eicosanoids fatty acids and neutrophils: their relevance to the pathophysiology of disease, 75
inhibitory effects of azelastine and tranilast on LTB_4 and LTC_4 generation by rat colonic mucosa, 355
LT metabolism is impaired in hepatocytes from rats with thioacetamide-induced liver cirrhosis, 309
noradrenaline and dopamine infusions modulate arachidonic acid metabolism ex vivo in man, 47
Linoleic acid (LA)
age-related depletion of linoleic acid desaturation in liver microsomes from young spontaneously hypertensive rats, 59
effect of different n-6/n-3 essential fatty acid ratios on calcium balance and bone in rats, 13
effects of piroxicam and esculetin on the MDA-MB-231 human breast cancer cell line, 325
effects of vitamin E deficiency and dietary lineolate on serum thromboxane synthesis in male Sprague-Dawley rats, 405
role of fatty acids and eicosanoids in modulating proteoglycan metabolism in endothelial cells, 315
Lipid peroxidation
effects of vitamin E deficiency and dietary lineolate on serum thromboxane synthesis in male Sprague-Dawley rats, 405
eugenol: an inhibitor of lipoxygenase-dependent lipid peroxidation, 381
Lipoxygenase
effects of piroxicam and esculetin on the MDA-MB-231 human breast cancer cell line, 325
eugenol: an inhibitor of lipoxygenase-dependent lipid peroxidation, 381
mouse spermatozoa can synthesize prostaglandin E_2 and 5-hydroxyeicosatetraenoic acid in vitro: stimulatory action of nitric oxide, 347

oxygenation reactions of prostaglandins endoperoxide synthase and soybean lipoxygenase: surprising stoichiometry in the formation of hydroperoxy and hydroxy derivatives of cis,cis-eicosa-11,14-dienoic acid, 423

Liver
- age-related depletion of linoleic acid desaturation in liver microsomes from young spontaneously hypertensive rats, 59
- contribution of hepatocytes to prostaglandin synthesis in rat liver, 109
- increased prostacyclin content in gastric mucosa of cirrhotic patients with portal hypertensive gastropathy, 41
- leukotriene metabolism is impaired in hepatocytes from rats with thioacetamide-induced liver cirrhosis, 309

Lung(s)
- beneficial effects of a leukotriene receptor antagonist on thrombin-induced pulmonary oedema in the rat, 433
- platelet activation and platelet lipid composition in pulmonary cancer, 65

Luteolysis
- control of prostaglandin production by the endometrium in relation to menstruation and, 147
- prostaglandin $F_{2\alpha}$ and prostaglandin E_2 production into uterine lymph of pregnant and non-pregnant ewes, 351
- role of interferon-alpha in arachidonic acid metabolism by the rat uteri from spayed animals: effect of 17beta-oestradiol, 267

Lymphatic system: prostaglandin $F_{2\alpha}$ and prostaglandin E_2 production into uterine lymph of pregnant and non-pregnant ewes, 351

M

Membrane(s)
- abnormal membrane concentrations of 20- and 22-carbon essential fatty acids: a common link between risk factors and coronary and peripheral vascular disease, 385
- eugenol: an inhibitor of lipoxygenase-dependent lipid peroxidation, 381
- platelet activation and platelet lipid composition in pulmonary cancer, 65
- prostaglandin synthesis in human cancer cells: influence of fatty acids and butyrate, 87
- *see also* Signal transduction

Menstruation, control of prostaglandin production by the endometrium in relation to luteolysis and, 147

Mistol oil
- effects of dietary n-3 n-6 and n-9 polyunsaturated fatty acids on benzo(alpha)pyrene-induced forestomach tumorigenesis in C57BL6J mice, 273
- protective capability of dietary *Zizyphus mistol* seed oil on the development of murine mammary gland adenocarcinomas, 135

Muscle
- effect of thromboxane A_2 receptor antagonist BAY u3405 on neuroeffector transmission in canine tracheal tissue, 213
- evidence of a temperature-sensitive step in the release of prostaglandin E_2 in calcium ionophore-stimulated rat muscle, 117
- platelet-activating factor effects on eicosanoid release in neonatal rat cardiomyocytes, 197

N

N-acylethanolamines
- analysis of anandamide and other natural *N*-acylethanolamines, 301
- anandamide: an endogenous cannabinomimetic eicosanoid, 1

Nervous system

Nervous system
- effect of thromboxane A_2 receptor antagonist BAY u3405 on neuroeffector transmission in canine tracheal tissue, 213
- improvement of blood flow and diabetic neuropathy by thromboxane A_2 dual blocker KDI-792, 139
- role of protein synthesis in interleukin 1 alpha-induced prostaglandin production in ovine astroglia, 69

Neutrophils, relevance to the pathophysiology of disease of eicosanoids and fatty acids and, 75

Nitric oxide, mouse spermatozoa synthesis of prostaglandin E_2 and 5-hydroxyeicosatetraenoic acid in vitro and stimulatory action of, 347

Non-steroid anti-inflammatory drugs (NSAIDs): low-dose aspirin does not attenuate platelet aggregation or atherosclerosis in miniature swine but decreases production of aortic wall prostacyclin, 331

Noradrenaline (norepinephrine)
- effects of long-term treatment with angiotensin-converting enzyme inhibitor on angiotensin II and prostacyclin release from mesenteric arteries in spontaneously hypertensive rats, 359
- modulation of arachidonic acid metabolism ex vivo in man by infusions of dopamine and, 47
- relevance of mediators to cardiac parameters of isolated anaphylatic guinea-pig heart, 21

O

Oedema: beneficial effects of a leukotriene receptor antagonist on thrombin-induced pulmonary oedema in the rat, 433

Oestrogen(s)
- control of prostaglandin production by the endometrium in relation to luteolysis and menstruation, 147
- role of interferon-alpha in arachidonic acid metabolism by the rat uteri from spayed animals: effect of 17beta-oestradiol, 267

ON-579 (thromboxane A_2 receptor antagonist), effect on experimental allergic reactions of, 123

Oocyte: effects on in vitro fertilization in mice by prostaglandin synthesis in cumulus-oocyte complexes, 261

Oxytocin: control of prostaglandin production by the endometrium in relation to luteolysis and menstruation, 147

P

Peripheral vascular disease, abnormal membrane concentrations of 20- and 22-carbon essential fatty acids and, 385

Phenylketonuria, effects of n-3 and n-6 polyunsaturated fatty acids on plasma lipids and fatty acids of children with, 401

Phorbol 12-myristate 13-acetate (TPA) and epidermal growth factor (EGF) stimulate de novo synthesis of PGHS-1 and PGHS-2 through different signal transduction pathways, 225

Phosphatidylcholine, plasma: distribution in rabbits fed fish oil is modulated by dietary n-6 fatty acids, 445

Phospholipase(s)
- arachidonic acid and eicosanoids as targets and effectors in second messenger interactions, 239
- eicosanoid production and phospholipase A_2 activity in uterine tissue from castrated rats with non-insulin dependent diabetes mellitus, 341
- influx of extracellular calcium and agonist-coupling appear essential for the activation of thromboxane A_2-dependent phospholipase A2 in human platelets, 31

Piroxicam, effects on the MDA-MB-231 human breast cancer cell line of, 325

Placenta: prostaglandin H synthase in the sheep placenta during cortisol-induced labour, 53

Platelet(s)
- consumption of a garlic clove a day could be beneficial in prevention of thrombosis, 211
- garlic inhibition of cyclooxygenase activity: effect of raw versus boiled garlic extract on the synthesis of prostanoids, 397
- influx of extracellular calcium and agonist-coupling appear essential for the activation of thromboxane A_2-dependent phospholipase A_2 in human platelets, 31
- low-dose aspirin does not attenuate platelet aggregation or atherosclerosis in miniature swine but decreases production of aortic wall prostacyclin, 331
- platelet activation and platelet lipid composition in pulmonary cancer, 65

Platelet-activating factor, effects on eicosanoid release in neonatal rat cardiomyocytes of, 197

Portal hypertensive gastropathy, increased prostacyclin content in gastric mucosa of cirrhotic patients with, 41

Potassium, effect on the vascular and renal prostaglandin system in

stroke-prone spontaneously hypertensive rats of diets rich in, 255
Pregnancy
control of prostaglandin production by the endometrium in relation to luteolysis and menstruation, 147
fatty acids in ovine endometrial phospholipids in late gestation and labour, 201
prostaglandin $F_{2\alpha}$ and prostaglandin E_2 production into uterine lymph of pregnant and non-pregnant ewes, 351
prostaglandin H synthase in the sheep placenta during cortisol-induced labour, 53
prostanoid excretion before in vitro fertilization relates to the likelihood of pregnancy, 419
role of interferon-alpha in arachidonic acid metabolism by the rat uteri from spayed animals: effect of 17beta-oestradiol, 267
Progesterone: control of prostaglandin production by the endometrium in relation to luteolysis and menstruation, 147
Prostacyclin (Prostaglandin I_2)
acute burn injury down-regulates rabbit splanchic and renal prostanoid release, 219
beraprost sodium inhibition of thrombin-induced increase in endothelial macromolecular permeability, 103
differential effects of acute thermal injury on rat splanchic and renal blood flow and prostanoid release, 439
effect of high potassium diets on the vascular and renal prostaglandin system in stroke-prone spontaneously hypertensive rats, 255
effects of long-term treatment with angiotensin-converting enzyme inhibitor on angiotensin II and prostacyclin release from mesenteric arteries in spontaneously hypertensive rats, 359
increased prostacyclin content in gastric mucosa of cirrhotic patients with portal hypertensive gastropathy, 41
low-dose aspirin does not attenuate platelet aggregation or atherosclerosis in miniature swine but decreases production of aortic wall prostacyclin, 331
platelet-activating factor effects on eicosanoid release in neonatal rat cardiomyocytes, 197
prostanoid excretion before in vitro fertilization relates to the likelihood of pregnancy, 419
relevance of mediators to cardiac parameters of isolated anaphylatic guinea-pig heart, 21
Prostaglandin D_2: contribution of hepatocytes to prostaglandin synthesis in rat liver, 109
Prostaglandin E1 (PGE_1)
diets rich in eicosapentaenoic acid and gammalinolenic acid affect phospholipid fatty acid composition and production of prostaglandins E_1 E_2 and E_3 in turbot (*Scophthalmus maximus*), 279
prostaglandin synthesis by cumulus-oocyte complexes: effects on in vitro fertilization in mice, 261
Prostaglandin E_2 (PGE_2)
acute burn injury down-regulates rabbit splanchic and renal prostanoid release, 219
contribution of hepatocytes to prostaglandin synthesis in rat liver, 109
diets rich in eicosapentaenoic acid and gammalinolenic acid affect phospholipid fatty acid composition and production of prostaglandins E_1 E_2 and E_3 in turbot (*Scophthalmus maximus*), 279
differential effects of acute thermal injury on rat splanchic and renal blood flow and prostanoid release, 439
effect of high potassium diets on the vascular and renal prostaglandin system in stroke-prone spontaneously hypertensive rats, 255
effects of piroxicam and esculetin on the MDA-MB-231 human breast cancer cell line, 325
effects of a single dose and short-term captopril treatment on some pressor and depressor humoral factors in healthy subjects, 377
epidermal growth factor (EGF) and TPA stimulate de novo synthesis of PGHS-1 and PGHS-2 through different signal transduction pathways, 225
evidence of a temperature-sensitive step in the release of PGE_2 in calcium ionophore-stimulated rat muscle, 117
in gastric mucosa of cirrhotic patients with portal hypertensive gastropathy, 41
mouse spermatozoa can synthesize PGE_2 5-hydroxyeicosatetraenoic acid in vitro: stimulatory action of nitric oxide, 347
noradrenaline and dopamine infusions modulate arachidonic acid metabolism ex vivo in man, 47
prostaglandin $F_{2\alpha}$ and PGE_2 production into uterine lymph of pregnant and non-pregnant ewes, 351
prostaglandin release from rat femurs after implantation of hydroxylapatite and aluminium oxide ceramics, 413
prostaglandin synthesis by cumulus-oocyte complexes: effects on in vitro fertilization in mice, 261
Prostaglandin E_3 (PGE_3): diets rich in eicosapentaenoic acid and gammalinolenic acid affect phospholipid fatty acid composition and production of prostaglandins E_1 E_2 and E_3 in turbot (*Scophthalmus maximus*), 279
6-keto-prostaglandin $F_{1\alpha}$ ($PGF_{1\alpha}$)
prostaglandin release from rat femurs after implantation of hydroxylapatite and aluminium oxide ceramics, 413
prostanoid excretion before in vitro fertilization relates to the likelihood of pregnancy, 419
Prostaglandin $F_{2\alpha}$ ($PGF_{2\alpha}$)
control of prostaglandin production by the endometrium in relation to luteolysis and menstruation, 147
evidence of a temperature-sensitive step in the release of prostaglandin E_2 in calcium ionophore-stimulated rat muscle, 117
prostaglandin $F_{2\alpha}$ and prostaglandin E_2 production into uterine lymph of pregnant and non-pregnant ewes, 351
prostaglandin synthesis by cumulus-oocyte complexes: effects on in vitro fertilization in mice, 261
role of protein synthesis in interleukin 1 alpha-induced prostaglandin production in ovine astroglia, 69
Prostaglandin H synthase (PGHS)
epidermal growth factor (EGF) and TPA stimulate de novo synthesis of PGHS-1 and PGHS-2 through different signal transduction pathways, 225
in the sheep placenta during cortisol-induced labour, 53
Protein kinase(s)
arachidonic acid and eicosanoids as targets and effectors in second messenger interactions, 239
epidermal growth factor (EGF) and TPA stimulate de novo synthesis of PGHS-1 and PGHS-2 through different signal transduction pathways, 225
Proteoglycans: role of fatty acids and eicosanoids in modulating proteoglycan metabolism in endothelial cells, 315

R

Renal prostaglandins *see* Kidney
Renin-angiotensin system
effects of long-term treatment with angiotensin-converting enzyme inhibitor on angiotensin II and prostacyclin release from mesenteric arteries in spontaneously hypertensive rats, 359
effects of a single dose and short-term captopril treatment on some pressor and depressor humoral factors in healthy subjects, 377
Reproduction
control of prostaglandin production by the endometrium in relation to luteolysis and menstruation, 147
mouse spermatozoa can synthesize prostaglandin E_2 and 5-hydroxyeicosatetraenoic acid in vitro: stimulatory action of nitric oxide, 347
prostaglandin synthesis by cumulus-oocyte complexes: effects on in vitro fertilization in mice, 261
prostanoid excretion before in vitro fertilization relates to the likelihood of pregnancy, 419
role of interferon-alpha in arachidonic acid metabolism by the rat uteri from spayed animals: effect of 17beta-oestradiol, 267
see also Pregnancy
Respiratory system
beneficial effects of a leukotriene receptor antagonist on thrombin-induced pulmonary oedema in the rat, 433
effect of thromboxane A_2 receptor antagonist BAY u3405 on neuroeffector transmission in canine tracheal tissue, 213
effect of thromboxane A_2 receptor antagonist ON-579 on experimental allergic reactions, 123
epidermal growth factor (EGF) and TPA stimulate de novo synthesis of PGHS-1 and PGHS-2 through different signal transduction pathways, 225
platelet activation and platelet lipid composition in pulmonary cancer, 65

S

Signal transduction
  arachidonic acid and eicosanoids as targets and effectors in second messenger interactions, 239
  epidermal growth factor (EGF) and TPA stimulate de novo synthesis of PGHS-1 and PGHS-2 through different signal transduction pathways, 225
Skin
  effect of thromboxane A_2 receptor antagonist ON-579 on experimental allergic reactions, 123
  improvement of blood flow and diabetic neuropathy by thromboxane A_2 dual blocker KDI-792, 139
Sperm
  mouse spermatozoa can synthesize prostaglandin E_2 and 5-hydroxyeicosatetraenoic acid in vitro: stimulatory action of nitric oxide, 347
  prostaglandin synthesis by cumulus-oocyte complexes: effects on in vitro fertilization in mice, 261
Spices
  consumption of a garlic clove a day could be beneficial in prevention of thrombosis, 211
  garlic inhibition of cyclooxygenase activity: effect of raw versus boiled garlic extract on the synthesis of prostanoids, 397
Splanchic vascular bed
  acute burn injury down-regulates rabbit splanchic and renal prostanoid release, 219
  differential effects of acute thermal injury on rat splanchic and renal blood flow and prostanoid release, 439
Steroid hormones
  control of prostaglandin production by the endometrium in relation to luteolysis and menstruation, 147
  role of interferon-alpha in arachidonic acid metabolism by the rat uteri from spayed animals: effect of 17beta-oestradiol, 267
Stomach
  effects of dietary n-3 n-6 and n-9 polyunsaturated fatty acids on benzo(alpha)pyrene-induced forestomach tumorigenesis in C57BL6J mice, 273
  increased prostacyclin content in gastric mucosa of cirrhotic patients with portal hypertensive gastropathy, 41
Stroke-prone spontaneously hypertensive rats, effect of high potassium diets on the vascular and renal prostaglandin system in, 255

T

Temperature
  acute burn injury down-regulates rabbit splanchic and renal prostanoid release, 219
  differential effects of acute thermal injury on rat splanchic and renal blood flow and prostanoid release, 439
  evidence of a temperature-sensitive step in the release of prostaglandin E_2 in calcium ionophore-stimulated rat muscle, 117
  improvement of blood flow and diabetic neuropathy by thromboxane A_2 dual blocker KDI-792, 139
Tetrahydrocannabinol (THC) receptor
  analysis of anandamide and other natural *N*-acylethanolamines, 301
  anandamide: an endogenous cannabinomimetic eicosanoid, 1
Thrombin
  beneficial effects of a leukotriene receptor antagonist on thrombin-induced pulmonary oedema in the rat, 433
  beraprost sodium inhibition of thrombin-induced increase in endothelial macromolecular permeability, 103
Thrombosis
  effects of vitamin E deficiency and dietary lineolate on serum thromboxane synthesis in male Sprague-Dawley rats, 405
  garlic inhibition of cyclooxygenase activity: effect of raw versus boiled garlic extract on the synthesis of prostanoids, 397
  low-dose aspirin does not attenuate platelet aggregation or atherosclerosis in miniature swine but decreases production of aortic wall prostacyclin, 331
Thromboxane(s)
  acute burn injury down-regulates rabbit splanchic and renal prostanoid release, 219
  consumption of a garlic clove a day could be beneficial in prevention of thrombosis, 211
  differential effects of acute thermal injury on rat splanchic and renal blood flow and prostanoid release, 439
  effect of thromboxane A_2 receptor antagonist BAY u3405 on neuroeffector transmission in canine tracheal tissue, 213
  effect of thromboxane A_2 receptor antagonist ON-579 on experimental allergic reactions, 123
  effects of vitamin E deficiency and dietary lineolate on serum thromboxane synthesis in male Sprague-Dawley rats, 405
  eicosanoid production and phospholipase A_2 activity in uterine tissue from castrated rats with non-insulin dependent diabetes mellitus, 341
  improvement of blood flow and diabetic neuropathy by thromboxane A_2 dual blocker KDI-792, 139
  influx of extracellular calcium and agonist-coupling appear essential for the activation of thromboxane A_2-dependent phospholipase A_2 in human platelets, 31
  low-dose aspirin does not attenuate platelet aggregation or atherosclerosis in miniature swine but decreases production of aortic wall prostacyclin, 331
  noradrenaline and dopamine infusions modulate arachidonic acid metabolism ex vivo in man, 47
  platelet activation and platelet lipid composition in pulmonary cancer, 65 platelet-activating factor effects on eicosanoid release in neonatal rat cardiomyocytes, 197
  prostanoid excretion before in vitro fertilization relates to the likelihood of pregnancy, 419
  relevance of mediators to cardiac parameters of isolated anaphylatic guinea-pig heart, 21
Trachea
  effect of thromboxane A_2 receptor antagonist BAY u3405 on neuroeffector transmission in canine tracheal tissue, 213
  epidermal growth factor (EGF) and TPA stimulate de novo synthesis of PGHS-1 and PGHS-2 through different signal transduction pathways, 225
Tranilast, inhibitory effects on leukotriene B_4 and leukotriene C_4 generation by rat colonic mucosa of, 355
Trauma
  acute burn injury down-regulates rabbit splanchic and renal prostanoid release, 219
  differential effects of acute thermal injury on rat splanchic and renal blood flow and prostanoid release, 439
Tumour(s)
  cytotoxic action of *cis*-unsaturated fatty acids on human cervical carcinoma cells in vitro, 287
  effects of dietary n-3 n-6 and n-9 polyunsaturated fatty acids on benzo(alpha)pyrene-induced forestomach tumorigenesis in C57BL6J mice, 273
  effects of gamma-linolenic and dihomo-gamma-linolenic acids on 7, 12-dimethylbenz(alpha)anthracene-induced mammary tumours in rats, 95
  effects of piroxicam and esculetin on the MDA-MB-231 human breast cancer cell line, 325
  platelet activation and platelet lipid composition in pulmonary cancer, 65
  prostaglandin synthesis in human cancer cells: influence of fatty acids and butyrate, 87
  protective capability of dietary *Zizyphus mistol* seed oil on the development of murine mammary gland adenocarcinomas, 135
Turbot (*Scophthalmus maximus*), diets rich in eicosapentaenoic acid and gammalinolenic acid affect phospholipid fatty acid composition and production of prostaglandins E_1 E_2 and E_3 in, 279
Tyrosine kinase(s): epidermal growth factor (EGF) and TPA stimulate de novo synthesis of PGHS-1 and PGHS-2 through different signal transduction pathways, 225

U

Ulcerative colitis: inhibitory effects of azelastine and tranilast on leukotriene B_4 and leukotriene C_4 generation by rat colonic mucosa, 355
Urinary tract
  effects of a single dose and short-term captopril treatment on some pressor and depressor humoral factors in healthy subjects, 377

prostanoid excretion before in vitro fertilization relates to the likelihood of pregnancy, 419
Uterus
control of prostaglandin production by the endometrium in relation to luteolysis and menstruation, 147
eicosanoid production and phospholipase A_2 activity in uterine tissue from castrated rats with non-insulin dependent diabetes mellitus, 341
prostaglandin $F_{2\alpha}$ and prostaglandin E_2 production into uterine lymph of pregnant and non-pregnant ewes, 351
role of interferon-alpha in arachidonic acid metabolism by the rat uteri from spayed animals: effect of 17beta-oestradiol, 267

V

Vagus nerve: effect of thromboxane A_2 receptor antagonist BAY u3405 on neuroeffector transmission in canine tracheal tissue, 213
Vascular system
abnormal membrane concentrations of 20- and 22-carbon essential fatty acids: a common link between risk factors and coronary and peripheral vascular disease, 385
acute burn injury down-regulates rabbit splanchic and renal prostanoid release, 219
beraprost sodium inhibition of thrombin-induced increase in endothelial macromolecular permeability, 103
consumption of a garlic clove a day could be beneficial in prevention of thrombosis, 211
differential effects of acute thermal injury on rat splanchic and renal blood flow and prostanoid release, 439
effect of high potassium diets on the vascular and renal prostaglandin system in stroke-prone spontaneously hypertensive rats, 255
effect of long-term treatment with angiotensin-converting enzyme inhibitor on angiotensin II and prostacyclin release from mesenteric arteries in spontaneously hypertensive rats, 359
effects of vitamin E deficiency and dietary lineolate on serum thromboxane synthesis in male Sprague-Dawley rats, 405
garlic inhibition of cyclooxygenase activity: effect of raw versus boiled garlic extract on the synthesis of prostanoids, 397
improvement of blood flow and diabetic neuropathy by thromboxane A_2 dual blocker KDI-792, 139
increased prostacyclin content in gastric mucosa of cirrhotic patients with portal hypertensive gastropathy, 41
low-dose aspirin does not attenuate platelet aggregation or atherosclerosis in miniature swine but decreases production of aortic wall prostacyclin, 331
role of fatty acids and eicosanoids in modulating proteoglycan metabolism in endothelial cells, 315
see also Blood; Blood pressure
Vasopressin: effects of a single dose and short-term captopril treatment on some pressor and depressor humoral factors in healthy subjects, 377
Vitamin E deficiency, effects on serum thromboxane synthesis in male Sprague-Dawley rats of, 405

Z

Zizyphus mistol
effects of dietary n-3 n-6 and n-9 polyunsaturated fatty acids on benzo(alpha)pyrene-induced forestomach tumorigenesis in C57BL6J mice, 273
protective capability of dietary seed oil on the development of murine mammary gland adenocarcinomas, 135
